Prairie Quest to launch BuyWithPQC GPO

Fort Wayne, IN – BuyWithPQC is pleased to announce an affiliate arrangement with the Fort Wayne Chamber regarding the deployment of a member driven group purchasing organization. This GPO is focused on establishing pre-negotiated purchasing contracts that allow members to take advantage of greatly reduced rates that are not available to them as individual companies.

Our arrangement with the Fort Wayne Chamber is non-exclusive, though we believe many of the Fort Wayne Chamber members will choose to utilize the GPO. The focus of this program is to provide additional help for those who choose to utilize the GPO in reducing costs, increasing visibility of spend, and taking advantage of programs that will improve their bottom line. BuyWithPQC's programs and services are backed by over 100 years of acquisition management and contract administration. PQC has been providing similar services to state and federal agencies for the past 7 years and has helped eliminate or avoid over \$200 million dollars in savings.

For those in a position to rethink their procurement needs, we expect this program will prove to be a more effective way to do such. We will be conducting member outreach sessions in February and March to arrange a full review of the new opportunities provided by this GPO. Please feel free to contact our offices with questions and further information at 260.420.7374. BuyWithPQC's website is scheduled to go live on February 1, 2011 at www.buywithpqc.com.
